

The Crystal

case study
By Elia Magari

Location: Copenhagen, Denmark

Architect: Schmidt Hammer Lassen Architects

Owner: Nykredit

Year of completion: 2010

Climate: Marine West Coast

Material of interest: glass

Application: façade and enclosure

Properties of material: The double-glazed façade has integrated solar screens and is decorated by a subtle silk screen frit design that mitigates solar ingress, reflects daylight, and gives the building a homogenous expression which enhances its sculptural form.
